

Welcome Pack

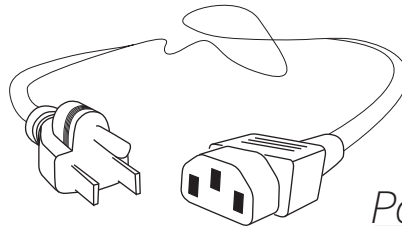

DryBox2.0

Contents

DryBox

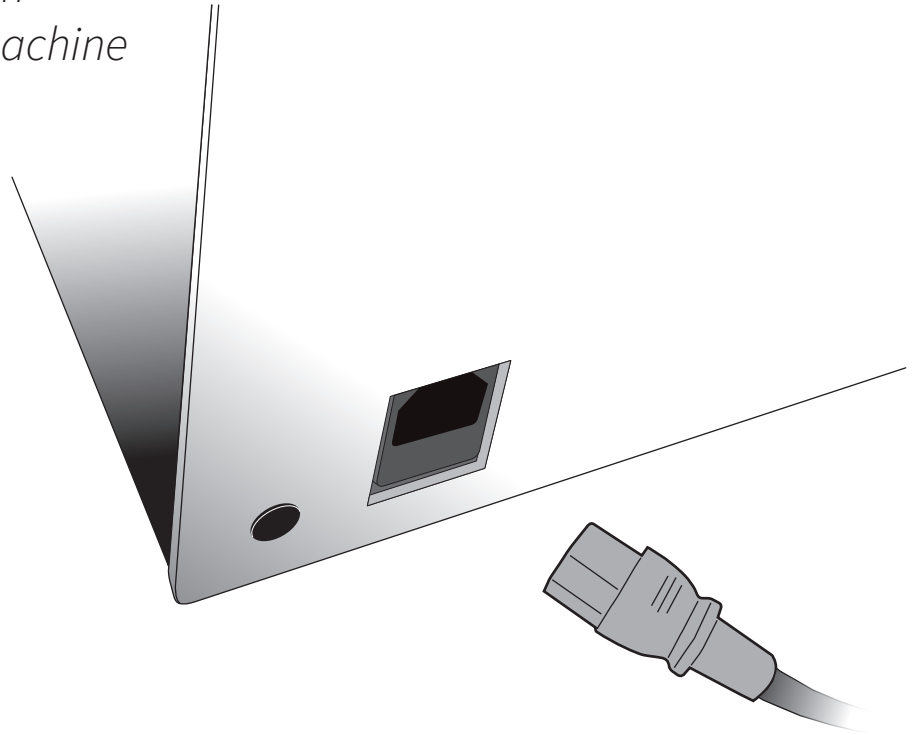

Power Cable

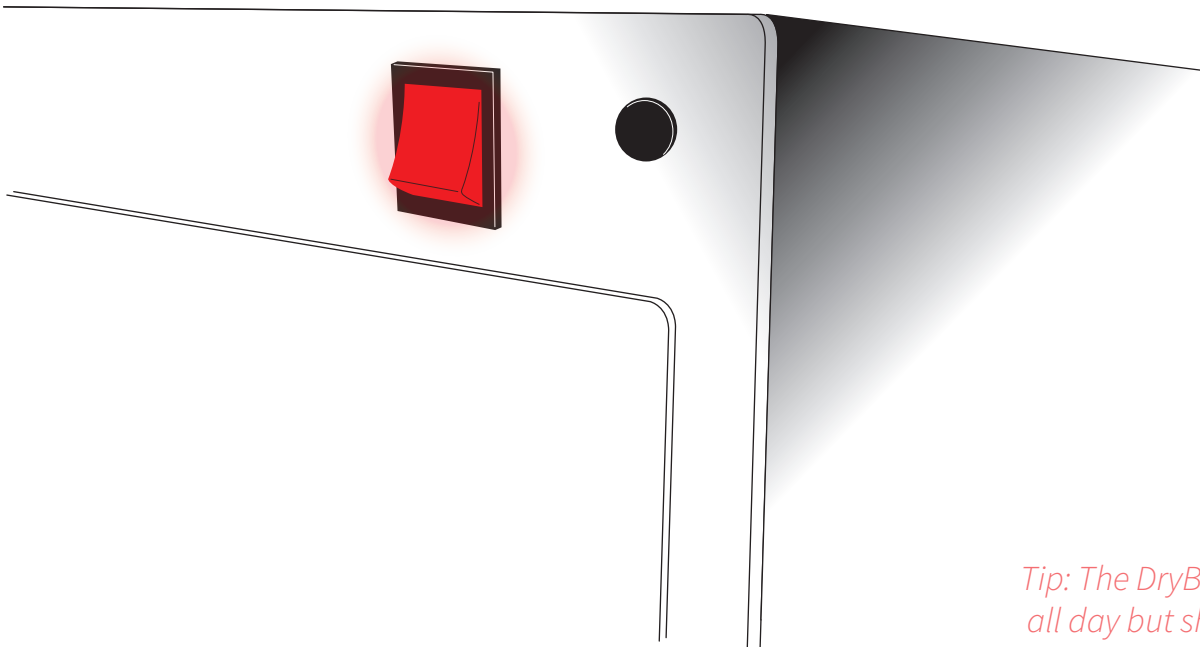

Keys

Initial Setup

- 1** Plug The Drybox in the back of the machine and to an outlet

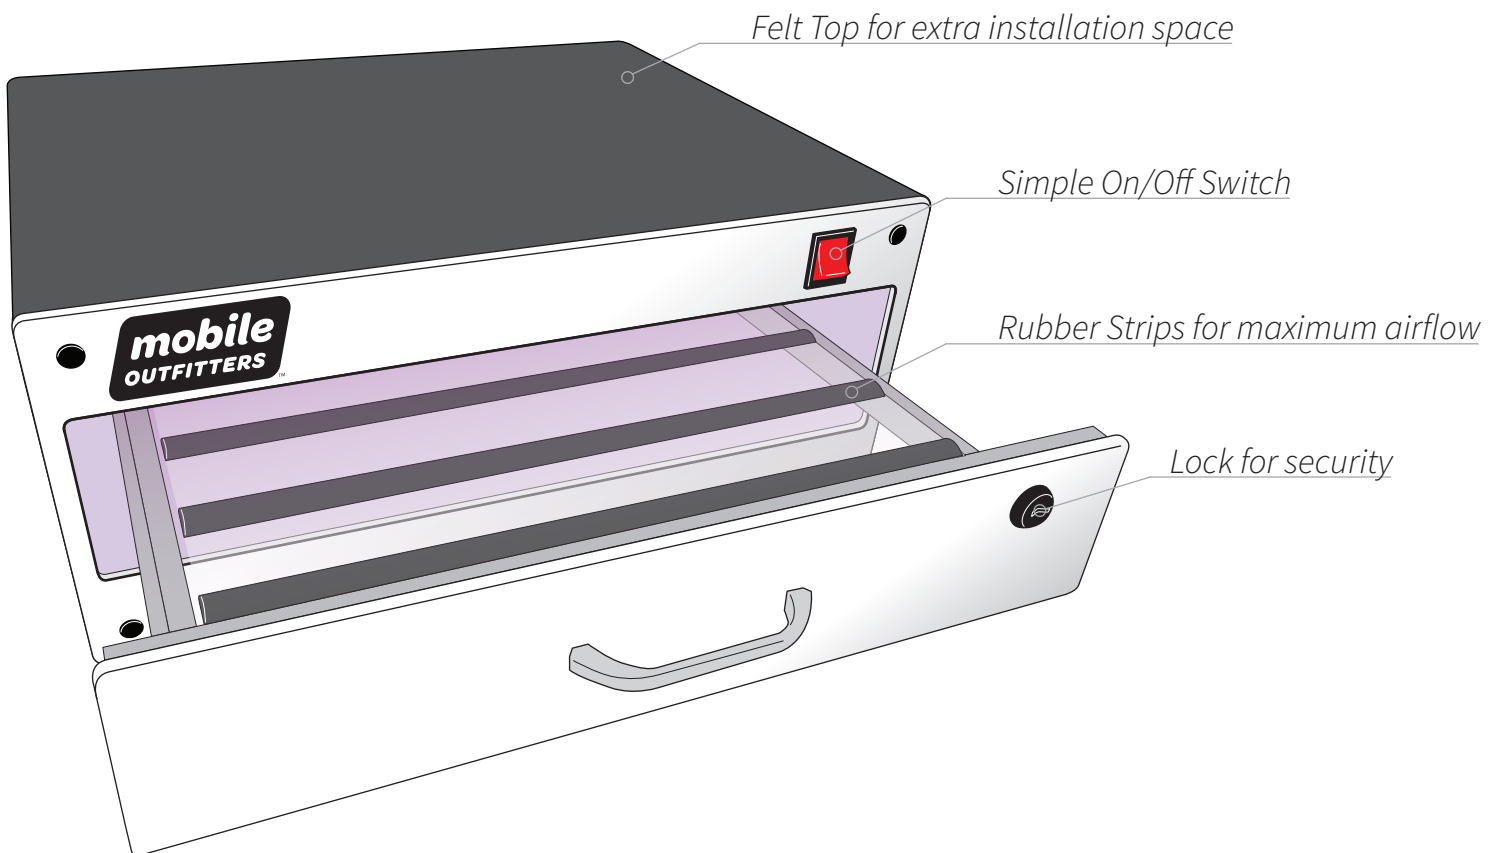

- 2** Turn the switch on the front to glow *red*.
**It should take about 30 minutes or so for your drybox to warm up*

Tip: The DryBox can stay on all day but should be shut off overnight.

Features

Your DryBox has a few Key features to dry your phones and tablets in under 10 Minutes! This combination of UV Light and Heat not only dries the phone but purifies the air in the box to get the cleanest installation!
